PROFESSIONAL SUMMARY

A dynamic and detail-oriented Back-End Web Developer with extensive experience in software development and technical support across various environments. Adept at solving complex problems and delivering timely solutions, I am passionate about harnessing technology to improve operational efficiency. Seeking to leverage my skills and experience in a challenging role within a reputable organization that values dedication and innovative thinking.

TECHNICAL SKILLS AND TECHNOLOGIES

- **Programming Languages:** PHP, JavaScript, C#
- **Backend Technologies:** PHP, Node Js, .Net
- **Database:** MySQL
- **Version Control:** Github
- **Tools:** VS Code, Sublime Text
- **Other Skills:** Communication, Teamwork, Problem Solving, Time Management, Critical Thinking, Object Oriented Programming (OOP).

WORK EXPERIENCE

Technical Support (Helium Health)
State Specialist Hospital, Ijero

August 2024 – March 2025
Ijero - Ekiti, Ekiti, Nigeria

- Installed, configured, and updated hardware and software components.
- Provided introductory training sessions to hospital staff on the Electronic Medical Record (EMR) system.
- Diagnosed and resolved hardware, software, and network issues.
- Fostered relationships with staff to ensure effective communication and understanding of technical solutions.
- Conducted weekly data backups.

Computer Teacher (NYSC)
Babatope Memorial High School, Ikoro - Ekiti

May 2024 – March 2025
Ikoro - Ekiti, Ekiti, Nigeria

- Designed lesson plans and instructional materials aligned with curriculum standards.
- Delivered engaging classroom instruction utilizing diverse teaching strategies.
- Assessed student performance through various forms of evaluations, including quizzes and assignments.

Software Development
3MTT (HS Project Technologies)

Jan 2024 – March 2024
Ibadan, Oyo, Nigeria

- Completed an intensive 3 months training program focused on Node.js, Express, and MongoDB.

- Gained hands-on experience in developing scalable web applications using modern JavaScript technologies.

IT Instructor
Mailop Technologies

Jan 2023 – April 2024
Ibadan, Nigeria

- Developed and implemented a curriculum covering PHP.
- Evaluated student comprehension through quizzes, exams, and projects.
- Provided mentorship and guidance to students.

Software Director 1
Computer Science Department (Session 2022-2023)
(The Polytechnic Ibadan)

Sept 2022 – Aug 2023
Ibadan, Nigeria

- Developed a responsive web application enabling students to pay departmental dues, download results, and access academic materials.
- Integrated Paystack payment gateway for secure online transactions.
- Implemented comprehensive error handling to enhance user experience.
- Facilitated a four-week boot camp covering HTML, CSS, JavaScript, and graphic design for new students who are new to coding.

Web Design and Development Backend Intern
Terra learning (formerly Side Hustle)

July 2021 – Sept 2021
Lagos, Nigeria

- Authored clean, well-structured PHP code and optimized database structures.
- Collaborated with frontend developers to ensure seamless integration of technology.
- Identified and resolved software bugs and issues.

Software Developer
Nova Technologies

April 2020 – Dec 2020
Ondo, Nigeria

- Managed the development of a Point of Sale (POS) desktop application for small businesses.
- Maintained and improved legacy codebases in VB.NET and C#.

VOLUNTEER

- **FixIt9ja:** Sub Team Lead (Backend) during Side Hustle Internship, developing a platform to connect mechanics and car owners.
- **Code Daily:** Provided tutoring and academic support to students in various subjects.
- **Veno:** Developed backend solutions for a healthcare linking platform during the Wema Bank Hackaholics 4.0 event.
- **Oyo State Software Exhibition (2022):** Represented The Polytechnic Ibadan at a statewide software exhibition.
